## FOR IMMEDIATE RELEASE

### **Full Closure on State Route 12 at Rio Vista Bridge This is an updated Construction Schedule**

**Solano County** – Due to the rainy weather, Caltrans has extended the night closures on the Rio Vista Bridge to December 14, 2007. We have four more night closures that will be done between the night of December 4 to the morning of the December 14, weather dependent.

The Rio Vista Bridge will be closed from Sunday through Thursday nights, between 9:00 p.m. to 5:00 a.m., weather dependent. The bridge closure is for the purpose of applying methacrylate to the bridge deck, cleaning and lubricating the lift cable ropes of the vertical lift span of the bridge deck, and replacing the expansion joints.

Traffic will be detoured around these closures. Caltrans will advise traffic in advance and guide motorists through detour routes with Changeable Messages Signs, placed in strategic locations to provide advance warning and detour directions.

#### **Detour:**

Traffic from State Route 12 in and near the City of Rio Vista, with destination points east of the Rio Vista Bridge, will be detoured via State Route 12 westbound to westbound Interstate 80 to southbound I-680. Continue south on I-680 across the Benicia-Martinez Bridge and then east to State Route 4. Continue east on Route 4 over the Antioch Bridge to Route 160 northbound. Continue north on Route 160 to Route 12 eastbound.

Traffic from State Route 12 east of the Rio Vista Bridge with the destination points in or west of Rio Vista, will be detoured via Route 160 southbound over the Antioch Bridge to Route 4 westbound and then north to I-680 over the Benicia-Martinez Bridge. Continue north on I-680 to I-80 eastbound. Continue I-80 eastbound to Route 12 eastbound.
